

# Enhanced technicality

**ZMevoolution®**  
 A sustainable composition with unique and superior corrosion resistance. ZMevoolution® is an innovative galvanized steel specifically designed for the construction industry. Thinner, stronger and more resilient, this new and improved generation of sustainable metallic coating offers exceptional aesthetic appeal, superior corrosion resistance, and a lifespan up to three times longer than standard zinc coating.

# Hairclyn

Hairclyn is an innovative precoated steel with hydrophilic properties allowing the facade to be cleaned by rainwater and offering limited fouling.

# Flontec®

**Anti-graffiti coating**  
 Graffiti on public or private façade is a problem in the urban environment that reduces the value of the building. It generates a negative social connotation. On Flontec®, graffiti can be removed easily with cold water and a high-pressure washer. Flontec® is available on the Prestige, Excellence and Freedom ranges of the Colorissime®. Please contact us for further information.

# Give life to your emotions

# Muralys®

**Boundless creativity**  
 A real technological and aesthetic revolution in the world of architecture, the Muralys® steel printing process opens the doors to your creativity. Available on many products of the ArcelorMittal Construction range, Muralys® allows clients and architects to express their project's unique identity through their facade design. Please contact us for further information.

The Muralys® process is also available in a range of standard visuals, which may be fully reproduced or substituted for original materials. Choose the decoration of your liking and let your imagination run wild!

**STAINLESS STEEL** Aesthetics first

**KRISTAL®** WEATHERING STEEL

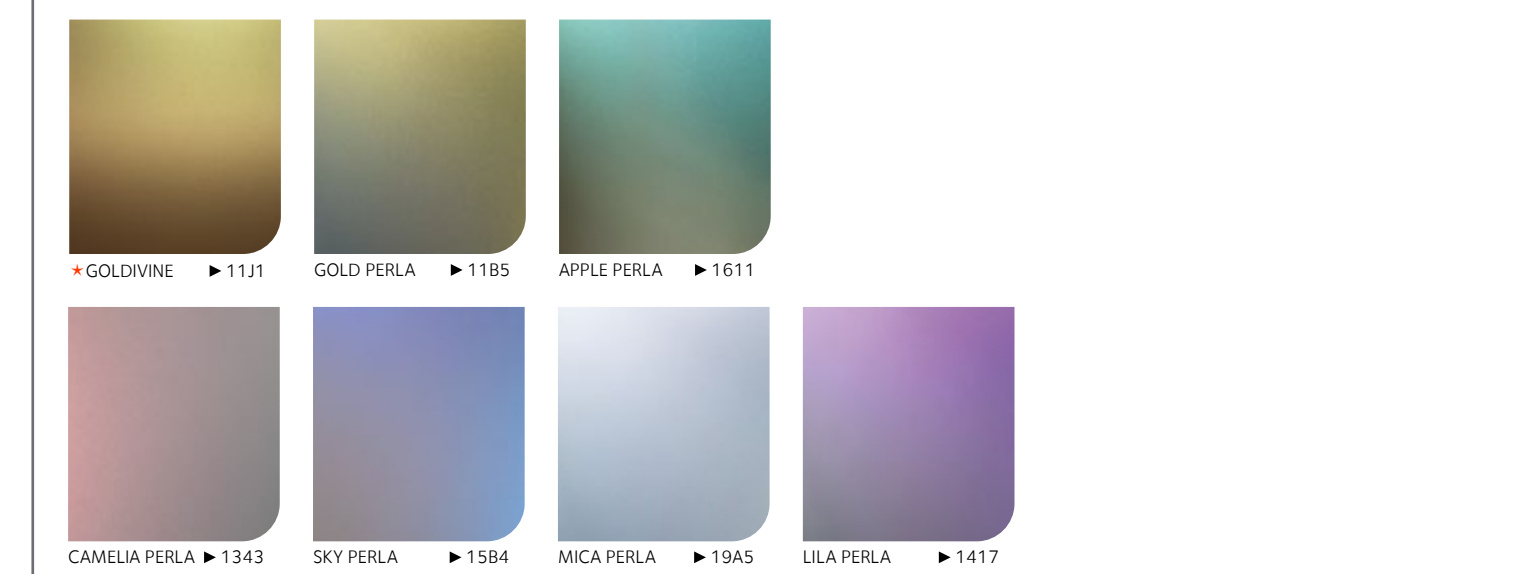

**INTERIEUR 12**

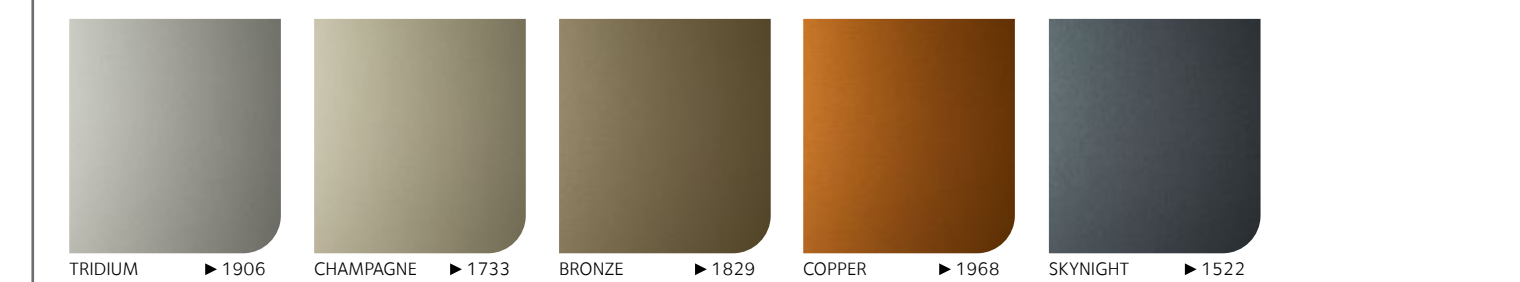

Although we have taken great care to replicate the colours in this colour chart, the illustrated colours are not necessarily indicative of the actual colours, and therefore we cannot guarantee that they are an exact match. Real samples may be obtained upon request.  
If the colour you are looking for isn't in this Colorissime, we can create the colour you require (subject to minimum quantities).

Colours marked with this symbol means there might be some variations in the shades depending on the individual production batches. Please make sure to order all required material for the entire building (or facade) at once, and ensure that the material is erected in the same direction.

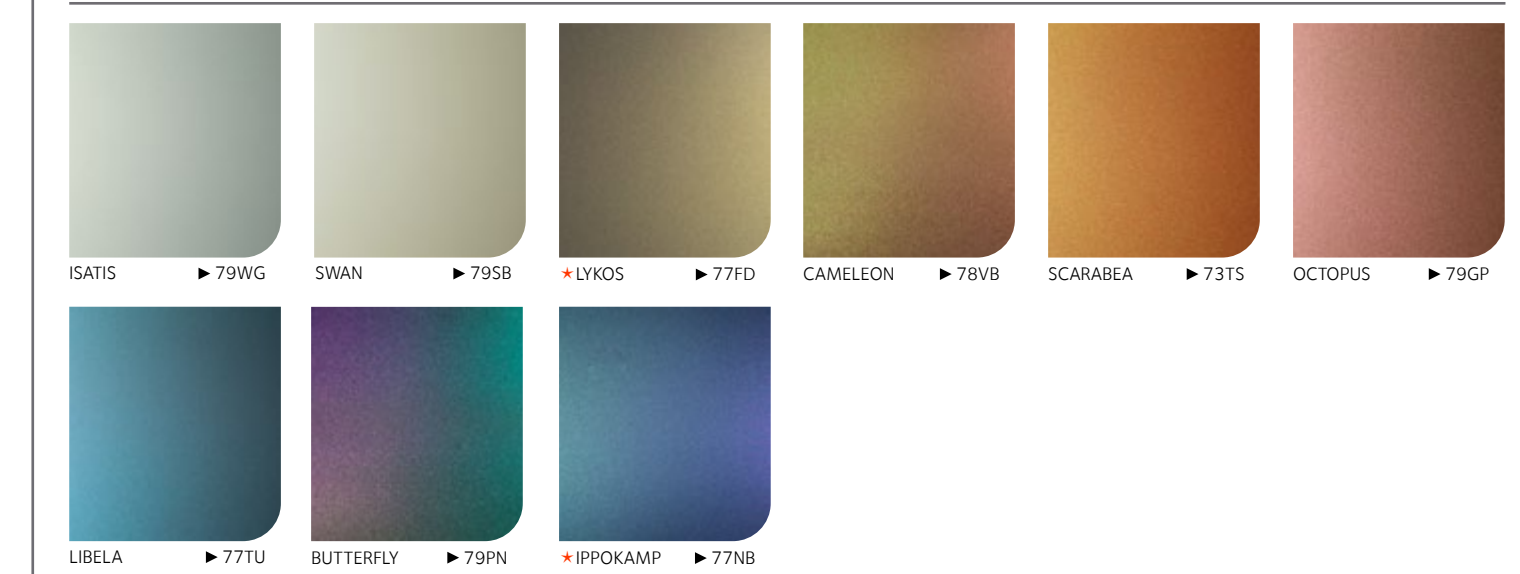

**PEARL 60** Pearly shine

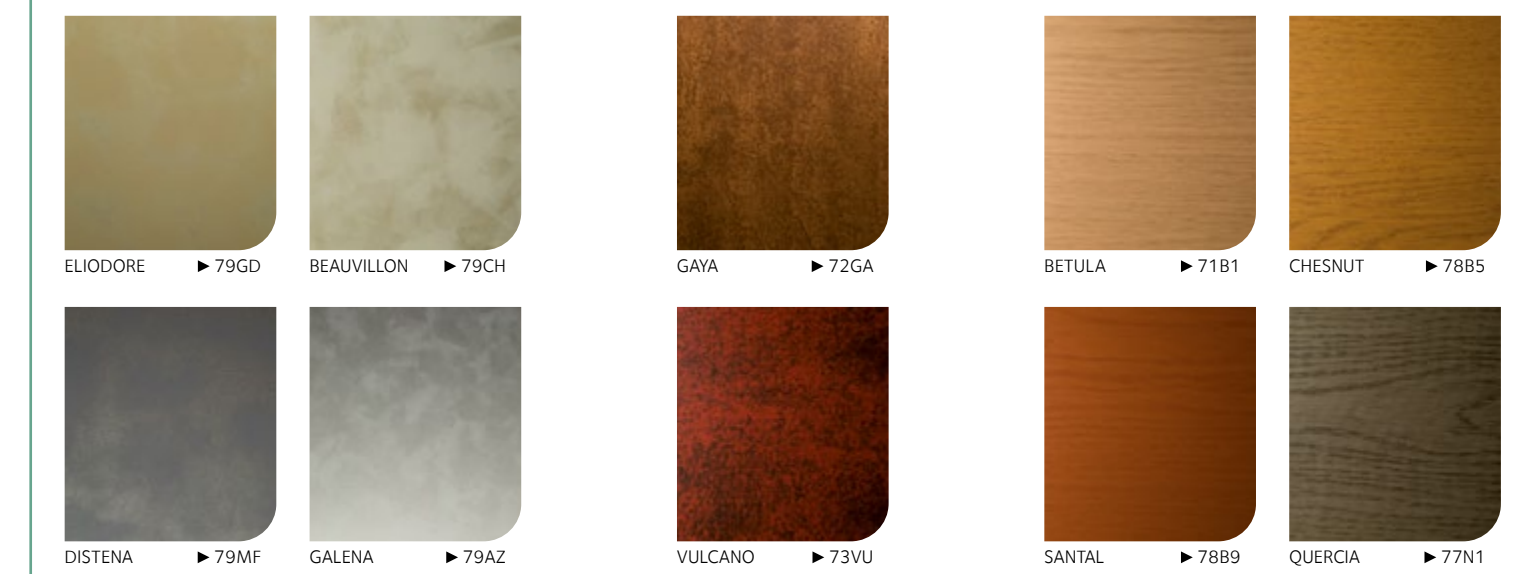

**INTENSE® 60** Intensity of Diamond

**IRYSA® 50** Iridescent emotions

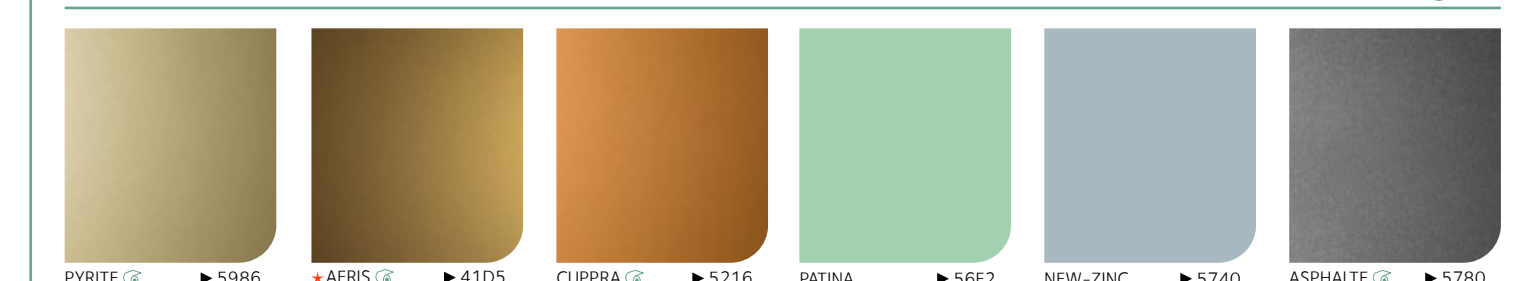

**EDYXO® 50** Cosy & textured effect

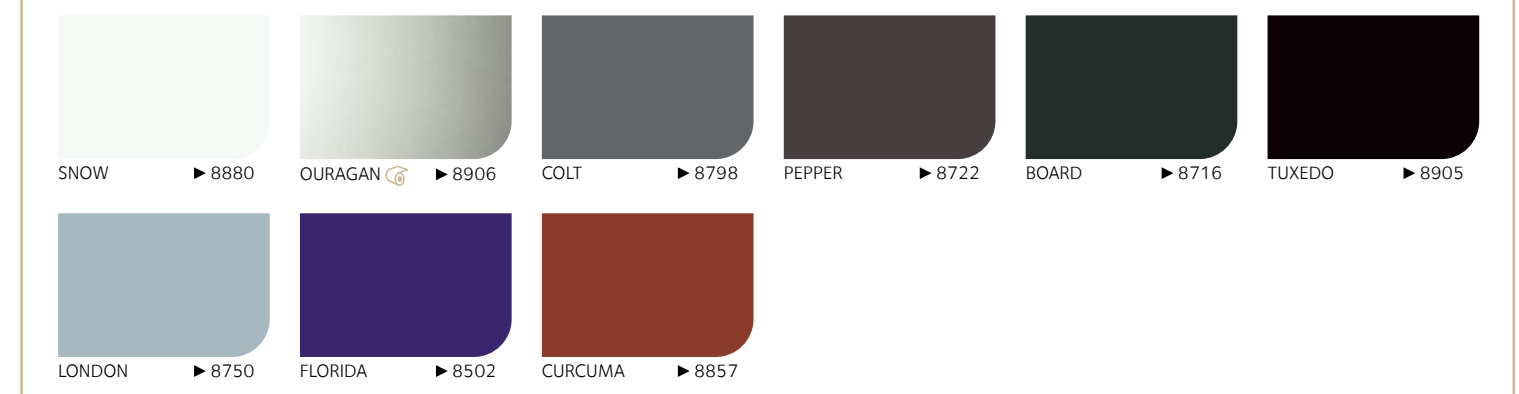

**NATUREL 35** Matt attraction

**AUTHENTIC 35** Soft gloss

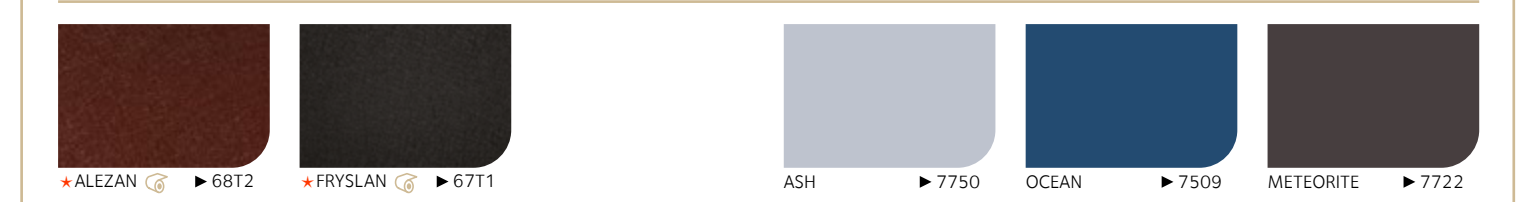

**R'UNIK 45** The new generation

**HAIREXCEL® 60** Design for life

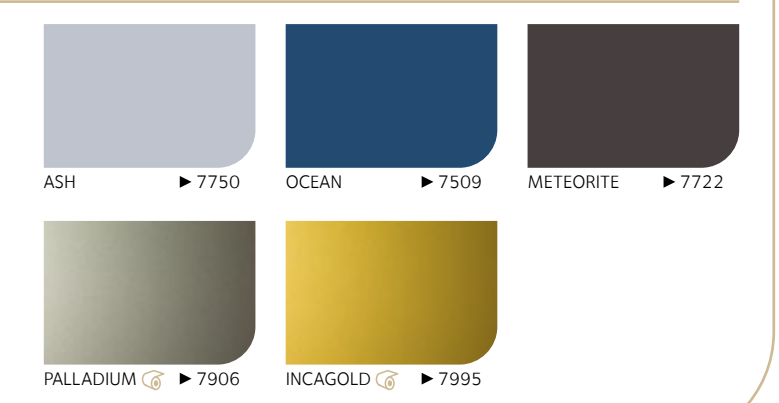

**TECTOVA® 60** Anti-slip

Recommended for roof application.

**SINEA® 85** Ultimate protection

**HAIRPLUS® 25 - HAIRULTRA® 35** High standards

**Freedom of colors**
